I certainly want to be responsive to these folks but Rick and David and the R10 press folks have been the lead for providing this kind of information. If its ok I would like to have them respond to ensure consistency.

Subject: Pebble Watch newsletter

Good afternoon Nancy,

I left you a voice message this morning and wanted to follow up by email.

I'm working on the next issue of BBNC's Pebble Watch newsletter, which will focus on the watershed assessment. We hope to provide our shareholders with meaningful information about the process, including:

- What type of information EPA is looking for from area residents
- Most effective way to get that to EPA

- What will happen to the information once submitted

It appears that there are concerted efforts by the EPA to make sure all voices are heard, so we hope to support that through the newsletter – reaching folks who might not have been able to make it to the meetings.

I am also contacting a few other EPA representatives who were at the Bristol Bay meetings to make sure I cover all the bases (these include Rick Parkin, David Allnut and Palmer Hough).

Thanks in advance for your help.
